Dear Tj,

It is with sincere gratitude, appreciation and recommendation that I write this letter to you. As I have mentioned to people before, "If you looked up the word Integrity in the dictionary I wouldn't be surprised if people saw your picture beside it. You sat with me for hours going over the details of my event, Passionate Forward. You were very particular about how the whole event would be orchestrated. Not only did you do a fantastic job as the Dj you also brought in little surprises that went a long way. One in particular was a professional wall sticker that peeled and mounted on to the wall in the dining hall. This just added that special touch and many people commented on how nice it was. Thank-you for listening to everything I envisioned about the event and making sure it came to fruition. Your kindness and consideration to all the people who attended the event was very much appreciated. You really went out of your way to make sure all requests were played. I know to well how the music played during an event or wedding can make the event a total disaster. I would give my 100% recommendation to hiring Tj the Dj. If anyone wants the same dry, unprofessional Dj who does only the minimum it will show. Take it from me, someone that has organized many events, it will pay off if you hire the best.

Sincerely,

Skye Wlkjord

Fundraising Co-ordinator for Passionate Forward Events.
